

SITE LEASE

This Site Lease (the "*Site Lease*" or "*Lease*") is made and executed on this [REDACTED] day of [REDACTED], 2016 (the "*Effective Date*"), by and between the Municipal Review Committee, a Maine nonprofit corporation with offices at 395 State Street, Ellsworth, Maine 04605 (the "*MRC*" or "*Landlord*") and FIBERIGHT, LLC, a Delaware limited liability company with offices at 1450 South Rolling Road, Baltimore, Maryland 21227 ("*Fiberight*" or "*Tenant*").

WHEREAS, the Landlord is or will be on or before the Effective Date the owner of a certain lot or parcel of land containing approximately 90 acres located on the easterly side of the Coldbrook Road in Hampden, Maine, in substantially the same location and configuration as generally depicted on **Exhibit A**, and bounded northeasterly by land and/or easements now or formerly of Emera Maine (formerly Bangor Hydro Electric Company), bounded southerly and southwesterly by land now or formerly of H.O. Bouchard, Inc., and bounded northerly by the centerline of a private road leading from Coldbrook Road to the northeasterly corner of the Property in substantially the same location as depicted on **Exhibit A** (the "*Property*"); and

WHEREAS, the Landlord and the Tenant have entered into a Development Agreement dated February 4, 2015 (the "*Development Agreement*") pursuant to which Fiberight proposes to develop, construct, maintain and operate on the Property a municipal solid waste processing facility (the "*Facility*"), as more particularly described in **Exhibit B**; and

WHEREAS, the Landlord and the Tenant have entered into a Master Waste Supply Agreement as of December __, 2015 setting forth the terms on which members of the MRC will deliver waste to the Facility for processing; and

WHEREAS, the Landlord has entered into Joinder Agreements with Joining Members pursuant to which each Joining Member has agreed to deliver waste to the Facility pursuant to the Master Waste Supply Agreement; and

WHEREAS, the Tenant has determined that such Joinder Agreements will assure delivery of a sufficient quantity of waste to the Facility in order for the Tenant to proceed with financing and construction of the Project; and

WHEREAS, the Tenant and the Landlord are sufficiently advanced in the permit acquisition process to allow the Project to proceed and, accordingly, wish to enter into this Lease as contemplated by the Development Agreement; and

WHEREAS, the Board of Directors of the Landlord and the duly authorized managers of the Tenant have each approved the execution and delivery of this Lease; and

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

WHEREAS, the Parties acknowledge that the Tenant's use of the Property and the Leased Premises is to be at all times subject to terms and conditions imposed by applicable law or regulation including, without limitation, rules and regulations of the Town of Hampden, Maine, and the Maine Department of Environmental Protection;

NOW, THEREFORE, in consideration of the mutual promises of the parties contained herein, and other good and valuable consideration each to the other paid, receipt of which hereby is acknowledged, the parties hereby agree as follows:

SECTION 1.0
DEFINITIONS

Capitalized terms when used herein shall have the meanings set forth below:

"Affiliate" means a person or entity controlled by, or under common control with, another person or entity.

"Capital Improvements" has the meaning set forth in Section 9.0

"Change in Law" means any of the following that has, or could reasonably be anticipated to have, a material affect on the rights or obligations of a party under this Agreement: (a) the adoption, modification, promulgation or interpretation after the date of the Financial Close of any federal, state or local statute or regulation or ordinance relating to the Facility or the Project Site that is inconsistent with and more stringent than what was in effect on the Financial Close; (b) the imposition after the date of the Financial Close of any material new condition or requirement in connection with the issuance, renewal, or modification of any governmental permit, license or approval relating to the Facility or the Project Site that is inconsistent with and more stringent than what was in effect as of the Financial Close or that had been agreed to in any application of the Tenant or Landlord for official permits, licenses or approvals that was pending as of the date of the Financial Close; (c) a condemnation or taking by eminent domain having a material adverse effect on the Property or the Facility; or (d) an order or judgment of any federal, state or local court, administrative agency or governmental body relating to the Facility or the Project Site that is inconsistent with and more stringent than the law or any legal requirement in effect as of the date of the Financial Close; provided that changes in federal or state tax laws or tax credits or incentives shall not be construed as a Change in Law.

"Commercial Operation Date" has the meaning set forth in Section 7.4.

“Construction Access Date” has the meaning set forth in Section 7.2.

“Construction Date” has the meaning set forth in Section 6.

“Contract Year” shall mean the twelve (12) month period that begins on the first day of the calendar month that immediately follows the Commercial Operation Date and each twelve (12) month period thereafter, provided that the last Contract Year shall end as of the date of termination of this Site Lease.

“Development Agreement” means the Development Agreement between the Landlord and the Tenant dated February 4, 2015.

“Effective Date” means the date of this Lease as set forth in the Preamble.

“Environmental Attributes” shall include renewable identification number products (RINs), carbon emissions offsets or greenhouse gas reduction credits, renewable energy certificates associated with the production of electricity or other products from biogas, and similar products whose value is created by the processing of solid waste or production of biogas or other products at the Facility.

“Environmental Laws” has the meaning set forth in Section 22.

“Event of Default” has the meaning set forth in Section 18.

“Excused Delay Period” means the period of delay, if any, in achieving the Commercial Operation Date beyond April 1, 2018 attributable to delays not under the control of the Tenant, including delays in the Construction Access Date and the Infrastructure Completion Date as described in Section 7.2 hereunder, or delays in the supply of Acceptable Waste for the Performance Test as described in Section 7.4 hereunder, but excluding performance of subcontractors and equipment suppliers not deemed due to Force Majeure.

“Extension Term” has the meaning set forth in Section 3.

“Facility” has the meaning set forth in the Preamble.

“Facility Permits” means permits, approvals, licenses and directives applicable to the Facility issued by federal, state or local government authorities pursuant to applicable law, rule or regulation.

“Financial Close” has the meaning set forth in Section 6.5.

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

“First Responders” has the meaning set forth in Section 5.8.

“Force Majeure” means any act, event or condition occurring after the Effective Date that has had, or may reasonably be expected to have, a material adverse effect on the rights or the obligations of either party under this Agreement or on the Facility, the Property or the Infrastructure or on the construction, ownership, possession or operation of the Facility, the Property or the Infrastructure, provided that such act, event or condition (a) is beyond the reasonable control of the party relying thereon as justification for not performing an obligation or complying with any condition required of such party under this Agreement; (b) is not the result of willful or negligent action, inaction or fault of the party relying thereon; and (c) which, by the exercise of reasonable diligence, such party is unable to prevent or overcome.

Acts, events or conditions of Force Majeure shall include, without limitation; (i) acts of God, epidemics, landslides, lightning, earthquakes, fires, hurricanes, floods, high-water washouts, and extraordinary storms (but excluding reasonably foreseeable weather conditions); (ii) a strike, work slowdown or similar industrial or labor action not exclusive to the Facility (iii) acts of the public enemy, wars, blockades, insurrections, riots, arrests and restraints by governments, civil disturbances, sabotage, and acts of terrorism or similar occurrences; (iv) catastrophic events such as explosions, breakage or accident to machinery or lines of pipe caused by the foregoing; (v) condemnation or taking by eminent domain of the Property or the Facility, in whole or in part, and (vi) a Change in Law. Force Majeure shall not include changes in market conditions for the supplies to or products of the Facility, and shall not include changes in the cost of the supplies, materials or labor needed to construct or operate the Facility, or that reduce the profitability of the Facility, unless specifically attributable to a specific Force Majeure event that affects the non-performing party as enumerated above.

“Force Majeure Plan” means a plan developed in compliance with the requirements of Section 17.3.

“Hazardous Materials” has the meaning set forth in Section 22.

“Incurable Lease Defaults” has the meaning set forth in Section 19.8.

“Infrastructure” means the access road to be constructed from Coldbrook Road to the Project Site and water and sewer lines constructed to serve the Project Site

“Infrastructure Completion Date” has the meaning set forth in Section 7.2.

“Initial Term” has the meaning set forth in Section 3.

“Joining Member” means a municipality or other entity that has entered into a Joinder Agreement with the MRC pursuant to which it is obligated to deliver waste to the Facility for processing under the Master Waste Supply Agreement.

“Landlord” has the meaning set forth in the Preamble hereof.

“Lease” or ***“Site Lease”*** means this site lease.

“Leased Premises” has the meaning set forth in Section 2 and **Exhibit A**.

“Master Waste Supply Agreement” means the Master Waste Supply Agreement entered into by the Landlord and the Tenant dated [December 31, 2015] pursuant to which Joining Members will deliver waste to the Facility for processing or any successor agreement.

“MSW” means municipal solid waste.

“Out-of-State Waste” means MSW generated outside of the State of Maine.

“Performance Standards” means the standards referenced in Section 7.4.

“Performance Test” means the test described in Section 7.4.

“Permitted Uses” has the meaning set forth in Section 2 hereof.

“Pre-Construction Condition” means the physical and environmental condition of the Leased Premises on the Effective Date.

“Project Site” has the meaning set forth in Section 2 and **Exhibit A**.

“Property” has the meaning set forth in the Preamble.

“Property Permits” has the meaning set forth in Section 5.

“Related Entity” has the meaning set forth in Section 10.3.

“Rent” has the meaning set forth in Section 4 and **Exhibit D** hereof.

"Substantial Damage" has the meaning set forth in Section 23.

"Tax Incentives" means credits, deductions, rebates or other measures granted by a taxing authority which have the effect of reducing the taxes or assessments which otherwise would be imposed on the Tenant or its Affiliates, business partners or other entities that would realize the benefits of such incentives; the Leased Premises; or the Project; by such taxing authority.

"Tenant" has the meaning set forth in the Preamble hereof.

"Tenant Permits" has the meaning set forth in Section 6.

"Tenant's Work" has the meaning set forth in Section 7 and **Exhibit B**.

"Term" has the meaning set forth in Section 3.

SECTION 2.0 DEMISE; DESCRIPTION OF THE LEASED PREMISES; PERMITTED USES

The Landlord leases to Tenant, and Tenant leases from the Landlord, that portion of the Property more particularly described in **Exhibit A** attached hereto (the **"Project Site"**), together with appurtenant rights thereto, to be used in common with others including the Landlord, (i) to use the private road leading from Coldbrook Road to the Project Site shown on said plan and described in **Exhibit A** to access the Project Site and for all other purposes for which public ways may now or hereafter be used, (ii) to drain stormwater from the Project Site and the private road identified in subsection (i) above and to tie into stormwater facilities, poles, wires, utilities, utility extensions and interconnections, metering facilities, management facilities, and other similar equipment, lines, facilities and items on the Property, all as further shown on the aforesaid plan, and (iii) to install, construct, use, repair, maintain, replace and relocate from time to time additional cables, conduits, pipes, pumps, poles, wires, utilities, utility extensions and interconnections, metering facilities, management facilities, and other similar equipment, lines, facilities and items on the Property, in each case on the portions of the Property more particular shown on the plan referenced in and described in **Exhibit A** (such locations identified in subsections (i), (ii) and (iii) above, together with Project Site, the **"Leased Premises"**). The Leased Premises are demised for the purposes of permitting, constructing, operating, and maintaining the Facility described on and generally in accordance with **Exhibit B** (the **"Permitted Uses"**). The Tenant shall own the Facility, which shall be and remain the personal property of the Tenant, and it shall not become a fixture on the Leased Premises. Only the

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

Leased Premises shall be leased. Subject to the provisions below, Landlord shall prepare and execute a Certificate of Personalty to this effect in recordable form reasonably acceptable to the parties.

Notwithstanding the foregoing lease of rights at subsections (i), (ii) and (iii) above, the Tenant acknowledges and agrees that it is Landlord's intention that the private road referred to above will be accepted by the Town of Hampden as a public way and, upon such acceptance, any private rights granted above that are included within any such acceptance are automatically terminated and the Landlord reserves the right to relocate or remove any appurtenances and improvements referred to above if a) required by the Town of Hampden and b) those services provided by or addressed by such appurtenances and improvements are otherwise substantially available to Tenant.

**SECTION 3.0
TERM**

3.1 Term. The initial term of this Site Lease shall commence on the Effective Date and shall continue through the later of April 1, 2033, or the fifteenth (15th) anniversary of the Commercial Operation Date (the “*Initial Term*”) unless otherwise terminated in accordance with its terms . Subject to the limitations in Section 3.2 below, the Tenant shall have the right to extend the Lease for up to five (5) consecutive periods of five (5) years each (each an “*Extension Term*,” and together with the Initial Term, the “*Term*”) by written notice to the Landlord exercising such right to an Extension Term, which notice shall be given by the Tenant no later than eighteen (18) months prior to the expiration of the then current Term, provided that Tenant shall provide notice to Landlord at the same time of a parallel extension of the Master Waste Supply Agreement. Upon timely exercise of each right to extend, the Term shall be automatically extended, provided that there is no then existing Event of Default on the part of the Tenant under this Lease at either the time of the Tenant’s exercise of its right to extend the Term or the commencement of the applicable Extension Term. In the event that the Tenant elects not to extend the Term, then, upon expiration of the Term without further extension, the Tenant shall have not more than 180 days to remove all of the Tenant’s equipment and personal property from the Property, leaving no further condition requiring remediation in order to comply with applicable law, permits or regulation; provided that the Tenant has left no further condition requiring remediation for compliance with applicable law, permits and regulations, and court and administrative orders, title to the building shall pass to the Landlord. If such a condition does exist, the Tenant shall proceed diligently and at its own cost to remediate such condition to the extent required in order to bring the Property into compliance with applicable law, permits and regulations. Unless the Landlord elects to take title sooner, title to the building and fixtures shall remain in the Tenant until completion of such remediation whereupon it shall pass to the Landlord. The Tenant agrees to execute and deliver such instruments of transfer as may be necessary or appropriate to pass title to the Landlord. Tenant shall cause to be performed, at its sole expense, such environmental site assessments as Landlord may reasonably require in order to provide assurance to Landlord that any conditions on the Property requiring remediation have been remediated to the extent required in order to bring the Property into compliance with applicable law, permits and regulations.

3.2 Right to Terminate. Notwithstanding receipt of a notice from Tenant exercising a right to an Extension Term, in the event that Joining Members have provided termination notices to the MRC under their Joinder Agreements such that the Delivery Target (as defined in the Waste Supply Agreement) would be less than 150,000 tons, then the Landlord shall have the right at the end of the Initial Term, or any Extension Term, to terminate this Agreement by written notice to the Tenant, which notice shall be given not later than eight (8) months prior to the expiration of the then current Term. In order to be effective, such notice of termination shall be accompanied

by both of the following offers:

(a) An offer from Landlord to Tenant to purchase the building constructed by Tenant on the Project Site at the price and on the terms set forth for such sales in **Exhibit C** as of the date of termination. In the event that Tenant accepts such offer, Landlord and Tenant shall proceed in good faith to close such sale as soon as possible subject to customary terms and conditions. Unless agreed otherwise, Tenant shall remove all of Tenant's equipment and personal property from the Property and shall take such actions as may be necessary or appropriate in order to bring the Project Site into compliance with applicable law, permits or regulation, and court or administrative orders, prior to the effective date of termination on a schedule to be agreed upon by Landlord and Tenant. Tenant shall cooperate with the transfer of any applicable Facility Permits to Landlord, to the extent that they are transferable, and would survive the termination of the Site Lease and the removal of Tenant's equipment and property from the Property, and shall cooperate with such other arrangements as are necessary or appropriate for the transfer of the ownership of the building from the Tenant to the Landlord; or

(b) An offer from Landlord to Tenant to sell the Property to Tenant at the price and on the terms set forth for such sales in **Exhibit C** as of the date of termination. In the event that Tenant accepts such offer, Landlord and Tenant shall proceed in good faith to close such sale as soon as possible subject to customary terms and conditions. Unless otherwise agreed, Landlord shall remove all of Landlord's equipment and personal property from the Property by the date of termination on a schedule to be agreed upon by Landlord and Tenant, shall cooperate with the transfer of any applicable Facility Permits to Tenant to the extent that they are transferable and would survive the termination of the Site Lease and the removal of Landlord's equipment and property from the Property. Landlord shall cooperate with such other arrangements as are necessary or appropriate for the transfer of the ownership of the Property from the Landlord to the Tenant. In the event Tenant does not accept such offer, then, as of the date of termination, provided that Tenant has left no further condition requiring remediation for compliance with applicable law, permits or regulation, Tenant will be deemed to have abandoned the building, title of which shall pass to the Landlord; provided, however, that if such a condition does exist, the Tenant shall proceed diligently and at its own cost to remediate such condition to the extent required in order to bring the Property into compliance with applicable law, permits and regulations. Unless the Landlord elects to take title sooner, title to the building and fixtures shall remain in the Tenant until completion of such remediation whereupon it shall pass to the Landlord. The Tenant agrees to execute and deliver such instruments of transfer as may be necessary or appropriate to pass title to the Landlord.

3.3 Survival. The terms of this Section 3.0 shall survive termination of this Agreement.

SECTION 4.0
RENT, ACCESS AND SERVICES

4.1 **Rent.** The Tenant shall pay the Rent and all other sums required to be paid by the Tenant under this Lease in the amounts, at the times, and in the manner provided in this Lease, and shall keep and perform all the terms and conditions on its part to be kept and performed hereunder. Except as otherwise specifically provided in this Lease, the Tenant shall not offset payments of Rent owed to the Landlord against any payments Landlord might owe Tenant. The Landlord and Tenant acknowledge and agree that the payments of Rent and other consideration for this Lease shall be as set forth in Exhibit D attached hereto.

4.2 **Included Landlord Rights and Services.** The Landlord shall provide to the Tenant with the following access and services on an ongoing basis, at the sole cost of the Landlord:

(a) an access road to be constructed by or on behalf of Landlord over an easement providing access from Coldbrook Road to the Leased Parcel until such time as the access road is accepted by the Town of Hampden as a public way;

(b) access to [electric power], water supply and sewer to be constructed by or on behalf of the Landlord or by a municipal authority running from Coldbrook Road or the Ammo Industrial Park to the Project Site;

(c) reasonable use of the Property outside the Leased Premises, not otherwise leased to a third party or developed or utilized by Landlord, on a temporary basis during construction of the Facility, as may be needed from time to time during such construction period, but only for Permitted Uses and only with Landlord's prior approval which shall not be unreasonably withheld;

(d) maintenance and plowing of the access road leading from the public way to the Project Site until such road is accepted by the Town of Hampden as a public way.

4.3 **Excluded Services.** The Tenant shall be responsible for making its own arrangements for installation, connection and purchasing of the following utilities and services, if and as needed, and the Landlord shall cooperate with the Tenant's efforts for making such arrangements as are reasonably required:

- (a) electricity service and implementation of an electrical interconnection with the Emera Maine electric distribution system;
- (b) natural gas service and implementation of an interconnection with a natural gas distribution system;
- (c) telephone service; and
- (d) internet service.

SECTION 5.0
QUIET POSSESSION: LANDLORD RIGHT OF ENTRY;
TENANT RIGHT OF ACCESS

5.1 Covenant of Quiet Enjoyment. The Landlord covenants that the Landlord has full right to make and enter into this Lease and that, subject to any rights of others lawfully entitled to use easements appurtenant to the Project Site, the Tenant shall have quiet and peaceable possession of the Leased Premises during the Term of this Lease free from interference by any party claiming by, through or under the Landlord, so long as the Tenant pays the Rent and observes and keeps the covenants of this Lease on its part to be kept. The Landlord reserves for itself, its agents and employees the right to enter and inspect the Leased Premises and the Facility subject to the provisions of this Lease.

5.2 Tax Incentives and Environmental Attributes. The Landlord acknowledges that all Tax Incentives and Environmental Attributes created as a consequence of the financing, construction or operation of the Facility by or on behalf of Tenant or its Affiliates shall belong solely to the Tenant.

5.3 Condition of Premises. The Tenant accepts the Leased Premises in the same condition in which they or any part thereof are as of the Effective Date, and except as otherwise provided in this Lease, waives all rights to object to the condition thereof and assumes all risks in connection therewith, without any representation or warranty, express or implied, in fact or in law, including but not limited to the suitability or fitness of the Project Site, Leased Premises or Property for Tenant's intended use, on the part of the Landlord other than as expressly set forth herein, and without recourse against the Landlord.

5.4 Facility Permits. The Tenant acknowledges that operation of the Facility is subject to applicable law, to regulation by federal, state and local government authorities and to permits,

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

approvals, licenses and directives pertaining to such facilities (collectively, the “Facility Permits”). The Tenant covenants that the operation of its Facility and its use of the Leased Premises will not violate the terms of the Facility Permits, and that the Landlord has the right hereunder to ensure that the Facility and the Tenant's activities conducted on the Leased Premises are operated in compliance with the Facility Permits. .

5.5 Environmental and Nuisance Impacts. The Tenant shall use reasonable efforts to operate and maintain the Facility in a manner that minimizes potential adverse environmental and nuisance impacts upon residents of the surrounding areas, which efforts shall include, without limitation, the following:

(a) The Tenant shall utilize measures to minimize and control fugitive odors and shall not allow production of objectionable odors that significantly exceed ambient levels as detected at or outside the borders of the Property.

(b) The Tenant shall not allow the Facility to produce noise that significantly exceeds ambient levels as measured or detected at or outside the borders of the Property.

(c) Vehicular access to the Facility shall be restricted during non-delivery hours.

(d) The Leased Premises shall be kept reasonably free of waste and other debris other than in designated indoor waste delivery locations.

(e) Driveways and other roads on the Leased Premises shall be kept in good order and repair and relatively free of litter.

The Tenant shall maintain and publicize a means for residents of nearby areas to contact the Facility to report the occurrence of any potential adverse environmental or nuisance impacts. The Tenant shall respond promptly to all such reports and shall act diligently to end or mitigate such impacts quickly. The Tenant shall keep a log of the date, time and nature of all such contacts and responses, and shall provide the log to the MRC on request and on a regular basis.

5.6 Inspection Rights. The Tenant shall permit the Landlord, its agents, invitees and employees to enter into and on the Leased Premises at all reasonable times and upon reasonable prior notice, provided such notice is no less than twenty four (24) hours in advance, for the purpose of inspecting the Leased Premises and enforcing the obligations and requirements set forth in this Lease or under applicable law with respect to the construction, operation, maintenance or removal of the Facility and Tenant's use of the Facility, the Leased Premises and the Property; provided, however, that the Landlord shall not be permitted to access secure or

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

restricted areas within the Leased Premises unless accompanied by a representative of the Tenant. The Landlord shall comply with all reasonable requirements of the Tenant for protection of health and safety during such entry and inspections. The Tenant shall cooperate fully with such inspections, which shall not interfere unreasonably with the Tenant's operation of the Facility or fulfillment of other obligations under the Lease.

5.7 Access. The Tenant and its employees shall be allowed 24-hour access to the Leased Premises, on each day of the Term, subject to compliance with the requirements of this Lease and applicable law.

5.8 Emergency Access. In coordination with the police and fire departments, and other emergency responders (together, "First Responders") that serve the Property, the Tenant shall develop and maintain a plan for continuous timely response to emergency situations that pose a potential adverse threat to the public health, safety, environment or the Property. The Tenant shall provide appropriate training and coordination to ensure that such First Responders are familiar with the Facility and with appropriate, proper and safe response measures to protect the public health, safety and environment. The Tenant agrees that, in the event of an emergency, First Responders shall have the right to enter the Leased Premises with or without permission from the Tenant or the Landlord. The Tenant shall provide the Landlord with emergency contact information for key personnel and shall ensure that such information is at all times current. Notwithstanding anything in this Lease to the contrary, in the event of an emergency to which the Tenant does not respond timely, the Parties acknowledge and agree that the Landlord and its agents and employees shall have the right (but not the obligation) to enter the Leased Premises at any time and without prior notice to Tenant, for the purpose of taking all actions necessary or reasonably appropriate to respond to such emergency condition.

SECTION 6.0
DEVELOPMENT OF THE FACILITY

6.1 Tenant Development Responsibilities. The Tenant shall take such actions as may be required to cause the Construction Date to occur no later than January 1, 2017. To complete such development, as applicable, the Tenant shall complete the detailed design of the Facility; acquire all permits and approvals that are necessary prerequisites to the leasing of the Leased Premises hereunder and commencement of construction of the Facility ("**Tenant Permits**"); enter into business and contractual arrangements to provide labor, equipment, services, materials, and supplies as necessary for construction; cooperate with the Landlord to arrange for the management or disposal of residual materials to be generated by the Facility; make arrangements to obtain financing for construction; and take all other necessary and appropriate actions related thereto. The Tenant shall be responsible for any indemnification, financial assurance, compliance or other obligations or requirements contained in any permits or approvals to the extent related to the Tenant's development of the Facility and use of the Leased Premises, including without limitation any host community agreements or payments. The Tenant shall provide the Landlord with copies of all permits, licenses and approvals, and with all correspondence with the issuing agencies and entities.

6.2 Landlord Development Responsibilities. The Landlord shall be responsible for the following: (i) the development and permitting, and arranging for construction and maintenance as described herein, of an access road from Coldbrook Road and related electrical utility line and water supply and wastewater collection infrastructure leading to the Project Site either, at Landlord's election, from Coldbrook Road or from the Ammo Industrial Park in Hampden, Maine; (ii) taking reasonable measures to cooperate with the Tenant's development efforts as described in Section 6.A, above including, without limitation, in connection with the submittal of additional permit applications, permit modifications, interpretation of key provisions, responses to agencies and in review and negotiation of conditions affecting the Leased Premises and the Property, potential environmental impacts or potential nuisance conditions. In connection therewith, the Landlord shall (a) provide available data and information regarding the Leased Premises and the Property to the extent necessary or appropriate to support the Tenant's efforts to obtain Tenant Permits, without any warranty or representation as to the accuracy or sufficiency thereof, and (b) shall (A) become a co-applicant and co-permittee with the Tenant for the purpose of seeking necessary permits or permit amendments and (B) coordinate with and make reasonable efforts to support the Tenant's access to the Property and the Leased Premises and with respect to the availability of and access to utilities, infrastructure, and other Landlord services available on the Property.

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

6.3 Design and Permit Application Review. The Landlord hereby acknowledges its consent to all Tenant work described in **Exhibit B** and to any future repairs, renovations, replacements, or upgrades by Tenant of the work described in **Exhibit B**, subject to the terms hereof. The Tenant shall provide the Landlord with a reasonable opportunity to provide non-binding comments on (a) the detailed design of the Facility at appropriate stages prior to its completion; and (b) permit application materials prepared by the Tenant prior to their submittal to the applicable governmental agency or agencies. The Landlord shall have the option to respond with non-binding comments within a reasonable time. The Tenant shall retain complete responsibility for all aspects of the design of the Facility and for all content of applications and submittals for Tenant Permits.

6.4 Reports. The Tenant shall provide reports to the Landlord as set forth in **Exhibit E**.

6.5 Construction Date. The construction date (the "**Construction Date**") shall be deemed to occur on the date that the Tenant has (a) acquired all Tenant Permits that are necessary prerequisites to construction of the Facility and related access, services and utilities and all such permits are final; (b) closed and/or arranged final terms of access to Fiberight of construction financing for sufficient funds to authorize commencement of construction of the Facility ("Financial Close"); and (c) authorized commencement of construction activities at the Leased Premises on a continuous basis, as evidenced by the Tenant's issuance of a notice to proceed to start construction or equivalent. The Tenant shall provide prompt notice to the Landlord upon achievement of each such milestone.

SECTION 7.0
CONSTRUCTION OF THE FACILITY

7.1 Tenant Construction Responsibilities. The Tenant shall construct the Facility in accordance with **Exhibit B** and **Exhibit E** attached hereto (hereinafter, the “*Tenant’s Work*”) in a good and workmanlike manner, at the Tenant’s sole cost and expense. The Tenant shall perform, or manage performance of, all aspects of construction of the Facility, in which capacity Tenant shall, among other things, manage labor, installation of equipment, acquisition and use of materials and supplies and all related administration; ensure that the Facility is constructed in accordance with the design, is capable of performing as intended, avoids unacceptable nuisance impacts, meets applicable safety requirements, and complies with all applicable permits, codes, requirements, and standards; respond to unforeseen conditions or impacts of the construction, and manage and mitigate adverse impacts; coordinate with the Landlord to ensure that activities on the Leased Premises and the Property are in compliance with all permits and approvals; coordinate with the Landlord regarding communications with approving authorities; fund any site improvements outside of the Project Site that are required to serve the Facility, including, but not limited to, electrical interconnections, utility service upgrades, and interconnections with gas and other facilities elsewhere on the Property, if applicable, but exclusive of those facilities that are to be developed or upgraded by the Landlord as provided herein; conduct start-up and commissioning activities for the Facility; conduct the Performance Test for the Facility; and take other necessary and appropriate actions. Tenant shall work with the Landlord to ensure compliance with all directives of governmental authorities related to the Facility and the Leased Premises.

The Tenant shall use reasonable efforts to cause the Commercial Operation Date to occur on April 1, 2018, or as soon thereafter as feasible, provided that Tenant shall not be required to commence its construction activities if any of the following conditions exist (any of which conditions might be waived at the discretion of Tenant):

(a) Joinder Agreements have not yet been executed with commitments to provide a total of at least 150,000 tons per year of Acceptable Waste to the Facility.

(b) Any Facility Permit that must be acquired as a prerequisite to construction has not yet been issued despite the diligent efforts of the Tenant to obtain such Facility Permit; or the Tenant has identified at least one term or condition of an issued Facility Permit that would preclude construction or operation of the Facility on commercially reasonable terms.

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

(c) An Uncontrollable Circumstance or Change in Law has occurred and is ongoing that would preclude construction or operation of the Facility on commercially reasonable terms.

(d) The Tenant has not achieved Financial Close despite its diligent efforts to do so.

If for any reason not under the control of Tenant, the Commercial Operation Date is delayed beyond April 1, 2018, then the period of delay in Tenant's construction schedule attributable to the delays not under the control of Tenant, including delays in the Construction Access Date and the Infrastructure Completion Date as described in Section 7.2 hereunder, or delays in the supply of Acceptable Waste for the Performance Test as described in Section 7.4 hereunder, but excluding performance of subcontractors and equipment suppliers not deemed due to Force Majeure, shall be deemed an Excused Delay Period for the purposes of the Master Waste Supply Agreement.

7.2 Landlord Construction Responsibilities. The Landlord shall be responsible for constructing and maintaining an access road to the Project Site from Coldbrook Road, and for ensuring that water and sewer lines are constructed to serve the Project Site (together, the "**Infrastructure**"). Landlord and Tenant shall cooperate to confirm the occurrence of the date by which the Landlord shall have made sufficient progress in construction of the access road such that the Tenant's construction vehicles and equipment have reasonable access to the Project Site (the "**Construction Access Date**") and the date on which the Landlord shall have completed installation of the Infrastructure such that its availability does not delay the Tenant's completion of construction and commencement of operation of the Facility (the "**Infrastructure Completion Date**"). In each case, upon occurrence of such date, the Landlord shall issue a completion certificate as evidence that the date has occurred. The Tenant shall provide written notice to the Landlord that it either accepts or disputes such certification, provided that such a certification shall be deemed accepted if the Landlord has not received a notice of dispute from the Tenant within five (5) business days. The Landlord shall use reasonable efforts to cause the Construction Access Date and the Infrastructure Completion Date to occur as quickly as feasible, provided that the Landlord shall not be required to commence its construction activities if any of the following conditions exist (any of which conditions might be waived at the discretion of Landlord):

(a) Joinder Agreements have not yet been executed with commitments to provide a total of at least 150,000 tons per year of Acceptable Waste to the Facility.

(b) Any Facility Permit that must be acquired as a prerequisite to construction has not yet been issued; or the Tenant has identified at least one term or condition of an issued Facility

Permit that would preclude construction or operation of the Facility on commercially reasonable terms.

(c) A Force Majeure has occurred and is ongoing that would preclude construction or operation of the Facility on commercially reasonable terms.

(d) The Tenant has not achieved Financial Close.

If for any reason not under the control of Tenant (i) the Construction Access Date is delayed beyond [September 1, 2016], or (ii) the Infrastructure Completion Date is delayed beyond [July 31, 2017] **UPDATE BOTH DATES BEFORE SIGNING PER THEN-CURRENT SCHEDULE**, and, as a consequence, Tenant's construction schedule is delayed such that the Commercial Operation Date is delayed beyond April 1, 2018, then the period of delay in Tenant's construction schedule attributable to the delays in the Construction Access Date and the Infrastructure Completion Date shall be accounted for in the determination of the Excused Delay Period for the purposes of the Master Waste Supply Agreement.

7.3 Schedule and Excused Delay Period. The Tenant shall maintain a detailed construction schedule that identifies critical tasks on the path from Financial Close to the achievement of the Commercial Operation Date, including, but not limited to, key milestone dates for the Tenant as well as the Construction Access Date, the Infrastructure Completion Date, and any period of time previously agreed upon as an Excused Delay Period. The Tenant shall provide an updated version of the construction schedule to the Landlord at least once per month until the Commercial Operation Date has been achieved, and otherwise upon request of the Landlord. Along with the construction schedule, the Tenant shall provide the Landlord with the most recently agreed upon determination of the length of the Excused Delay Period, if any, and any proposal for a further extension of the Excused Delay Period. The Landlord shall review the Tenant's proposal to add to the length of the Excused Delay Period and shall act timely to accept, dispute, or seek clarification or more time to review or negotiate such proposal. In the absence of a response from the Landlord within five days of receipt, the Tenant's determination of the length of the Excused Delay Period shall be deemed accepted.

7.4 The Performance Test. The Tenant shall perform the Performance Test as provided below in order to demonstrate the readiness of the Facility for commercial operation.

(a) Not less than ninety (90) days prior to the Commercial Operation Date, the Tenant shall provide to the Landlord a protocol for performing a test (the "**Performance Test**") that indicates (a) aspects of performance to be verified, which shall include, at a minimum, (i) capability to accept and process a minimum of 650 tons per day of Acceptable Waste on an

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

ongoing basis over a period of three consecutive days while operating in substantial compliance with all Facility Permits and without creating nuisance conditions, and without extraordinary outside support or staffing in excess of expected levels of staffing for the Facility; and (ii) capability to produce commercially saleable byproducts, or product precursors thereof, as appropriate, on a continuous and sustainable basis, with acceptable content of metals, plastics, COD and unconverted sugars in residual solid or liquid form, as applicable, within stated parameters; (b) procedures for conducting and monitoring the performance of the Facility during the Performance Test, including acceptable ranges for key operating parameters, and requirements for the availability of Acceptable Waste for the Performance Test to be performed as intended; and (c) specific levels of performance (the “*Performance Standards*”) that must be exceeded for the Facility to be considered as having passed the Performance Test. The Tenant and the Landlord shall work in good faith to reach agreement on the protocol for the Performance Test by a date not less than thirty (30) days before the Performance Test date elected by the Tenant with reasonable notice to the Landlord.

(b) The Landlord shall have the right to witness and monitor the Performance Test. The Tenant shall provide the Landlord with ten (10) days’ notice of a 14 day window that contains the scheduled date for the start of the Performance Test, and shall communicate changes in such scheduled date to the Landlord on a timely basis after such initial 10 day notice has been provided. The Tenant shall then provide the Landlord with 24 hours’ notice of the actual start of the Performance Test.

(c) After completion of the Performance Test, the Tenant shall provide the Landlord with a test report, and all supporting data, stating whether (a) the Performance Test was performed in accordance with the test protocol; (b) the key operating parameters were within acceptable ranges and the Performance Standards were met or exceeded over the course of the Performance Test; and (c) the Facility operated during the Performance Test in substantial compliance with all Facility Permits and without creating nuisance conditions. If the Tenant states that the Facility so performed during the Performance Test, and such statement is either accepted or not disputed in writing by the Landlord within five (5) business days of receipt of the test report, then the Commercial Operation Date shall be deemed to have occurred as of the later of (i) date on which the Performance Test was completed; and (ii) April 1, 2018. Landlord may dispute such result by written response stating the basis for the dispute, in which case the Commercial Operation Date shall be deemed to occur as if the Performance Test results had been accepted until the dispute is resolved, and thereafter in accordance with the decision resolving the dispute.

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

(d) The Landlord acknowledges that the Performance Test cannot be performed as intended unless sufficient quantities of Acceptable Waste are made available to the Facility for processing, which the Landlord, with the cooperation and support of the Tenant, shall use its best efforts to supply pursuant to the Master Waste Supply Agreement. In the event that the Tenant is not supplied on a timely basis with sufficient Acceptable Waste to perform the Performance Test, and the Commercial Operation Date is delayed as a direct result, then the length of the Excused Delay Period shall be increased by the duration of such delay.

SECTION 8.0
OPERATION OF THE FACILITY

8.1 Operation and Maintenance by Tenant. The Tenant shall manage all aspects of the operation and maintenance of the Facility, including management of labor, operation, maintenance and repair of equipment, acquisition and use of materials and supplies, production and sales of products, management of residual materials, and related administration. The Tenant shall use reasonable efforts to ensure that the Facility performs as intended, and otherwise to ensure that the operation and maintenance of the Facility avoids and mitigates unacceptable nuisance impacts, meets applicable safety requirements, and complies with all applicable permits, codes, requirements, and standards. The Tenant shall acquire and accept waste and other materials to be processed; respond to unforeseen conditions or impacts of the Facility, and manage and mitigate adverse impacts; coordinate with the Landlord regarding communications with approving authorities; operate and maintain Tenant site improvements outside of the Leased Premises that are required to serve the Facility, including, but not limited to, electrical interconnections, utility service upgrades beyond anticipated line extensions, and interconnections with other facilities, if applicable.

8.2 Tenant Maintenance Standards. The Tenant shall, at its sole cost and expense, keep neat and clean, and replace and maintain in good order and condition, the Leased Premises throughout the Term. Throughout the Term of this Lease, the Tenant shall comply, at its sole cost and expense, with all applicable federal, state and local laws, ordinances, orders, rules, regulations, and requirements affecting the Leased Premises; provided, however, that nothing in this Lease shall waive any right of the Tenant under applicable law to contest such laws, ordinances, orders, rules, regulations or requirements. The Tenant shall work with the Landlord to ensure compliance with all lawful directives of governmental authorities related to the Facility and the Leased Premises.

8.3 Landfill Disposal of Residual Waste. The Tenant shall establish procedures, and shall use reasonable efforts to enforce such procedures, to minimize landfill disposal of incoming waste by

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

ensuring that, to the extent commercially reasonable, (i) solid waste is not delivered to the Facility unless it can be accepted and processed at the Facility; and (ii) processed materials are marketed and sold as products for use off the Property rather than becoming residual waste that is either stockpiled or sent to a landfill for disposal. At the end of each month, the Tenant shall report to the Landlord the quantity of materials produced, the quantity sent to a landfill in such month, and the cumulative quantity of materials sent to a landfill in the then current Contract Year.

8.4 Record-keeping. During the Term of this Lease, and for a period of three (3) years thereafter, each party shall keep and maintain complete and accurate records and all other data required by each of them for the purposes of proper administration of this Lease. Each party shall have the right, at its sole expense during normal business hours upon seven (7) days prior written notice to the other party, to examine the other party's records and data relating to this Lease only to the extent necessary to verify the accuracy of any statement, charge, notice or computation made hereunder. Either party shall have the right to cause an audit to be made by an independent certified public accountant, at its own expense, reasonably acceptable to the other party with respect to any determination made hereunder. If the audit reveals that the record keeping or accounting of a Party is inaccurate in any material respect, then such Party shall be responsible to pay for the cost of the audit.

8.5 Reports and Oversight. The Tenant shall provide reports as detailed in **Exhibit E**. The Tenant shall meet with the Landlord at least quarterly to review its monthly written reports, and to report on, and permit the Landlord to comment on, MSW levels and sources received and processed, materials sold and produced, residuals generated and shipped, revenues, financial performance, compliance with permit conditions; status of permit approvals and renewals, and other material matters

8.6 Community Relations. The Tenant shall use reasonable efforts to cooperate with the Landlord to maintain good community relations.

8.7 Maintenance by the Landlord. During the Term of this Lease, the Landlord, at its sole cost and expense (subject to Section 7), and until such time as the same may have been accepted by the Town of Hampden, shall at all times keep the access road and related utility, sewer and water lines in good order, safe condition and repair, unless such repairs are required due to the fault or negligence of the Tenant or its servants, agents, employees, licensees or invitees.

SECTION 9.0
CAPITAL IMPROVEMENTS

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

9.1 Definition of Capital Improvements. Subject to the provisions of this Section 9.0, the Tenant shall have the right to make such alterations, improvements, and changes to the Facility and the Leased Premises as it may deem necessary from time to time in connection with Permitted Uses. Alterations, improvements and changes other than those considered normal maintenance or equipment replacement and which either (i) cause a material change in the process flow for the Facility as described in **Exhibit B**, (ii) have a material impact on Facility performance or compliance capability, or (iii) trigger a need for a modification to any of the Facility Permits (collectively, "**Capital Improvements**").

9.2 Conditions to Implementation of Capital Improvements. The right of the Tenant to make Capital Improvements shall be subject to the following conditions:

(a) The Tenant shall apply for and obtain necessary modifications to Facility Permits at the Tenant's sole cost and expense. The Landlord will use reasonable efforts to provide available data and information related to the Leased Premises and the Property to support the Tenant's efforts to modify such permits. The Tenant shall reimburse the Landlord for reasonable third party and external costs to the Landlord in connection therewith.

(b) The Tenant shall provide the Landlord with a reasonable opportunity to review and comment on permit application materials prepared by the Tenant prior to their submission to applicable regulatory authorities. The Landlord shall conduct any such review and comment within a reasonable time frame. The Tenant shall have the right to accept or reject any comments received and shall retain complete responsibility for all aspects of the design of the Facility and for all content of applications and submissions for permits and approvals.

(c) The Tenant shall certify to the Landlord in writing that the cumulative effect of such Capital Improvements will not have a material and adverse effect on the ability of the Tenant to perform its obligations under either this Lease or the Master Waste Supply Agreement.

(d) The Tenant shall provide updated versions of **Exhibit B** and **Exhibit C** to reflect the implementation of any Capital Improvements within a reasonable time following such implementation.

SECTION 10.0
ASSIGNMENT; TRANSFERS;
EFFECT OF BANKRUPTCY OR INSOLVENCY

10.1 Prohibition of Assignment. Except as otherwise provided in this Lease, neither this Lease

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

nor the leasehold estate of the Tenant nor any interest of the Tenant under this Lease in the Leased Premises or in the buildings or improvements on the Leased Premises shall be assigned, transferred, or sold, including without limitation any transfer by operation of law, in any manner whatsoever without the prior written consent of the Landlord, the giving of which shall be in the Landlord's sole discretion. Any attempt at any such assignment, transfer, or sale without the Landlord's consent shall be void and of no effect, and shall, at the option of the Landlord, terminate this Lease.

10.2 Transfer of Ownership. Notwithstanding any other provision of this Lease to the contrary, direct and indirect ownership of the Tenant may be transferred at any time and from time to time only with prior notice to and approval from the Landlord, not to be unreasonably conditioned, withheld or delayed, whether by sale, statutory merger or consolidation, security interest, collateral assignment, sales of securities (whether by private sale, initial public offering, trading on public securities markets, over-the-counter, or pursuant to warrants or options or other rights) or otherwise; *provided, however*, in the case of any such approved transfer (i) the transferee has demonstrated to the reasonable satisfaction of Landlord its financial capability, including access to committed funds, sufficient to complete development and construction of the Project and to operate the Facility during the term of this Lease, (ii) unless the Landlord shall otherwise agree in writing, Fiberight shall continue to have day-to-day control of and responsibility for Tenant operations and the Facility, (iii) the person(s) with day-to-day management responsibility for, and that provide(s) day-to-day operational services to, the Facility following such assignment shall be approved by the Landlord, such approval not to be unreasonably withheld or delayed, (iv) unless the Landlord shall otherwise agree in writing, the Tenant and its permitted successors and assigns shall continue to be jointly and severally liable for all obligations of the Tenant under the Lease, the Tenant Permits, the Landlord Permits, and other project documents (subject to notifications and transfer requirements, if any, established by applicable law); and (v) such transfer shall not adversely affect the continued validity of the Facility Permits and, subsequent to such transfer, each such permit shall remain in effect or the transferee shall have acquired in its name equivalent permits necessary to the development, construction and operation of the Project.

10.3 Permitted Assignment. Notwithstanding the foregoing, Fiberight shall have the right at any time to assign its rights under this Lease, upon prior notice to the Landlord but without the Landlord's consent, to an Affiliate that is directly controlled by Fiberight (a "*Related Entity*") or to an investor which will own and operate the Facility in connection with financing of the Facility; provided that in the case of any such permitted assignment, (i) the transferee has demonstrated to the reasonable satisfaction of Landlord its financial capability, including access to committed funds, sufficient to complete development and construction of the Project and to

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

operate the Facility during the term of this Lease, (ii) unless the Landlord shall otherwise consent in writing, until the Commercial Operation Date, Fiberight shall continue to have day-to-day control of and responsibility for operations and the Facility, (iii) the person(s) with day-to-day management responsibility for and that provide(s) day-to-day operational services to the Facility following such assignment shall have been approved in writing by the Landlord, which approval shall not be unreasonably withheld or delayed, and (iv) unless the Landlord otherwise agrees in writing, Fiberight shall have confirmed to the Landlord in writing that both it and any assignee will remain jointly and severally liable for all obligations of the Tenant hereunder; and (v) such transfer shall not adversely affect the continued validity of the Facility Permits and, subsequent to such transfer, each such permit shall remain in effect or the transferee shall have acquired in its name equivalent permits necessary to the development, construction and operation of the Project. Any other attempt by Fiberight to assign, transfer, or pledge this Agreement, whether in whole or in part, to any person without the prior written consent the Landlord shall be null and void.

10.4 Effect of Bankruptcy. Without limiting the generality of the provisions of the preceding Subparagraph A of this Section, the Tenant agrees that in the event any bankruptcy or insolvency proceedings under the Bankruptcy Act or otherwise are commenced by or against the Tenant, and, if against the Tenant, the proceedings shall not be dismissed before either an adjudication in bankruptcy or the confirmation of a composition, arrangement, or plan of reorganization, or in the event the Tenant is adjudged insolvent or makes an assignment for the benefit of its creditors, or if a receiver is appointed in any proceeding or action to which the Tenant is a party, with authority to take possession or control of the Leased Premises or the business conducted on the Leased Premises by the Tenant, and such receiver is not discharged within a period of ninety (90) days after his or her appointment, any such event or any involuntary assignment prohibited by the provisions of the preceding Paragraph A of this Section shall be deemed to constitute a breach of this Lease by the Tenant and shall, at the election of Landlord, but not otherwise, without notice or entry or other action of the Landlord, terminate this Lease and also all rights of the Tenant under this Lease and in and to the Leased Premises and also all rights of any and all persons claiming under the Tenant.

SECTION 11.0
NOTICES

11.1 All notices, demands, or other writings in this Lease provided to be given or made or sent, or which may be given or made or sent, by either party to the other, shall be deemed to have been fully given or made or sent if in writing and either (i) delivered in person, (ii) sent by recognized overnight courier with acknowledgement of receipt, (iii) sent by certified mail, return receipt requested, or (iv) sent by email, provided a confirmation copy is sent promptly by

With a copy to: Eaton Peabody
80 Exchange Street
P.O. Box 1210
Bangor, Maine 04402
Attention: Daniel G. McKay, Esq.
Email: dmckay@eatonpeabody.com

If to Fiberight: 1450 South Rolling Road
Baltimore, MD 21227
Attention: Craig Stuart-Paul
Email: craigsp@fiberight.com

Either party may change the address at which notices are to be delivered by providing notice of such change in the manner provided above. If the Tenant shall so request, copies of all notices being provided to it shall also be provided to any Investor for which contact information has been provided in writing by Fiberight to the MRC for such purpose.

SECTION 12.0
TAXES AND ASSESSMENTS

The Tenant shall be responsible for any and all taxes, tax liabilities, assessments, levies or other governmental charges that may accrue with respect to the Leased Premises and any improvements thereon. The Tenant shall be responsible to file such applications with the appropriate authorities, on an annual basis, for an abatement, exemption or reduction in the tax liabilities due with respect to the Leased Premises.

SECTION 13.0
LIENS

13.1 Future Liens. Except as otherwise may be permitted under this Lease, Tenant shall keep all and every part of the Leased Premises and the Property free and clear of any and all

mechanics', material suppliers', and other liens for or arising out of or in connection with work or labor done, services performed, or materials or appliances used or furnished for or in connection with any operations of the Tenant, any alteration, improvement, or repairs or additions that the Tenant makes or permits or causes to be made, or any work or construction, by, for, or permitted by the Tenant on or about the Leased Premises and the Property, or any obligations of any kind incurred by the Tenant, and at all times promptly and fully to pay and discharge any and all claims on which any such lien may or could be based, and to indemnify the Landlord from and against any and all such liens and claims of liens and suits or other proceedings pertaining to the Leased Premises and the Property.

13.2 Prior Liens. The Landlord warrants that the Leased Premises are, and shall remain throughout the Term, free of any prior liens or encumbrances that would interfere with Tenant's use and enjoyment of the Leased Premises.

13.3 Contest of Liens. The Landlord and the Tenant shall each have the right to contest any and all liens assessed against the Leased Premises in accordance with applicable provisions of Maine law.

SECTION 14.0 **INDEMNIFICATION**

14.1 Obligation to Indemnify. The Tenant shall indemnify, defend and hold the Landlord harmless against any and all claims, liability, loss, or damage whatever (including without limitation attorneys' and experts' fees) arising from acts or omissions of the Tenant or its employees, officers, agents, licensees or invitees in, on or about the Leased Premises, or a breach by the Tenant of its obligations or representations and warranties under this Lease, except in either case to the extent arising from the gross negligence or willful misconduct of the Landlord, its agents, or employees.

14.2 Survival. The provisions of this section shall survive termination of the Lease.

**SECTION 15.0
INSURANCE**

15.1 Insurance Coverage of Leased Premises. The Tenant shall, at all times during the Term of this Lease, and at the Tenant's sole expense, keep all improvements that are now or hereafter a part of the Leased Premises insured against loss or damage by fire and the extended coverage hazards for the full replacement value (or the actual cash value during any Extension Term) of the improvements, with loss payable to the Landlord and the Tenant as their interests may appear. During the Term, the Tenant shall also maintain for the benefit of the Tenant and the Landlord, as additional insured, such other insurance coverages as are customary in the industry including, but not limited to, (i) commercial general liability insurance, including products and completed operations coverage, against any claims for personal injury, death and property damage occurring upon, in or about the Leased Premises and on, in and about the adjoining sidewalks and passageways of at least \$_____ combined single limit, and \$_____ aggregate; (ii) worker's compensation in amounts required by Maine law; (iii) employer's liability insurance with limits of not less than \$_____ per coverage; (iv) automobile liability insurance, including the ownership, maintenance and operation of any automotive equipment, owned, hired or non-owned, in an amount not less than \$_____ combined single limit; and (v) environmental impairment insurance in an amount not less than \$_____.

15.2 Personal Injury Liability Insurance. The Tenant shall maintain in effect throughout the Term of this Lease personal injury liability insurance covering its activities on the Leased Premises for injury to or death of any number of persons in one occurrence, and property damage liability, in the minimum amount of \$_____ combined single limit. Such insurance shall include the Landlord as an additional insured and shall require the insurer to give thirty (30) days' notice to the Landlord of any cancellation.

15.3 Insurance Carried by Contractors. During the period of any construction or renovation of the Facility, the Tenant shall also require the construction manager and/or general contractor for the work to maintain (i) for the benefit of the Tenant and the Landlord, as additional insureds, commercial general liability insurance, including products and completed operations coverage, against any claims for personal injury, death and property damage occurring upon, in or about the Property and on, in and about the adjoining sidewalks and passageways during the construction of the work for at least \$_____ combined single limit, and \$_____ aggregate; (ii) worker's compensation in amounts required by Maine law; (iii) employer's liability insurance with limits of not less than \$_____ per coverage; (iv) automobile liability insurance, including the ownership, maintenance and operation of any

automotive equipment, owned, hired or non-owned, in an amount not less than \$ _____ combined single limit; and (v) for subcontractors engaged in work reasonably determined to pose an environmental threat, environmental impairment insurance in an amount not less than \$ _____. The Tenant shall insure that all subcontractors involved in work at the Property either maintain the insurance coverage set forth in this section or are covered under the insurance policies of the Tenant or as a contractor of the Tenant.

15.4 Additional Insurance Coverage Required. If the Tenant is required by law, regulation or regulatory order to carry insurance with coverage limits in excess of those set forth in Sections A and B of this Section 18, the Tenant shall increase insurance coverage limits to the Landlord to meet such requirements.

SECTION 16.0 RIGHT OF FIRST OFFER

Provided that the Tenant is not otherwise in default hereunder, the Tenant shall have a right of first offer to purchase the Property in its entirety or the Leased Premises, as applicable, if the Landlord desires to sell the Property in its entirety, or the Leased Premises, during the term of this Lease. In the event that the Landlord desires to sell either the Property in its entirety or the Leased Premises during the term of this Lease, the Landlord shall first offer the same in writing to the Tenant, which shall have thirty (30) days to accept or reject the offer. Thereafter, without first reoffering the same to the Tenant, the Landlord shall not sell the same upon lesser terms than those which have been offered to the Tenant, nor upon any terms if more than six months have elapsed since the last offer to the Tenant. These rights of first offer shall not apply to a sale or transfer to any Affiliate or successor entity to the Landlord, provided, however, that the property sold or transferred to such entity shall remain subject to these rights of first offer.

SECTION 17.0 FORCE MAJEURE

17.1 Change In Law; Condemnation. The Tenant shall notify the Landlord, and the Landlord shall notify the Tenant, in writing, promptly as soon as either party has knowledge of any action of the federal government, state legislature, state administrative or regulatory authority, court of applicable jurisdiction, or any other governmental body that could lead to a condemnation or taking by eminent domain of the Property or the Facility or to the occurrence of a Change in Law. Tenant and Landlord shall use reasonable efforts to cooperate to avoid any such action and to mitigate its potential impact on the obligations set forth in this Lease or in the Master Waste Supply Agreement.

17.2 Suspension of Obligations. If either party is rendered unable, wholly or in part, by Force Majeure to carry out its obligations under this Lease, such party shall provide to the other party as soon as possible after the occurrence of the cause relied on a notice of Force Majeure which shall include a reasonably full description of the particulars of such Force Majeure. In such event, the obligations of the party giving such notice, other than the obligation to make any payment due hereunder, so far as they are affected by such Force Majeure, shall be suspended during the continuance of any inability so caused but for no longer period provided that:

(a) the burden of establishing whether an event of Force Majeure has occurred shall be upon the party claiming its existence;

(b) the nonperforming party shall exercise all reasonable efforts to continue to perform its obligations hereunder, to mitigate the impact of non-compliance, to claim and diligently seek to collect any insurance proceeds potentially available as a consequence of the Force Majeure, and the other party shall cooperate fully with and be supportive of such efforts;

(c) no obligation of either party that arose prior to the occurrence of the event of Force Majeure shall be excused as a result of such occurrence except to the extent a party is prevented from performing such obligation as a result of the Force Majeure event.

(d) the nonperforming party shall provide the other party with prompt notice of the cessation of the event of Force Majeure.

17.3 Force Majeure Plan. As soon as feasible after providing notice that a Force Majeure has occurred, the affected party shall provide the other party a plan (the "*Force Majeure Plan*") that contains sufficient information regarding the following:

(a) potential impacts of the Force Majeure on, as applicable, the Construction Access Date, the Infrastructure Completion Date, the Commercial Operations, the Excused Delay Period, other affected aspects of the performance of the Facility under this Agreement and the Master Waste Supply Agreement, including compliance with permit conditions; and other obligations;

(b) proposed new Capital Projects or changes in operations or maintenance practices or other measures required to address the Force Majeure; the ability to meet performance obligations after such measures are implemented; and any reduce level of performance or ongoing level of obligation that cannot be fully mitigated or addressed;

(c) a proposal for costs to be passed through to the MRC and/or Joining Municipalities as part of the proposed response to address the Force Majeure, which might involve one time

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

payments, an increase in the Tip Fee under the Master Waste Supply Agreement and Joinder Agreements, or other changes to payment provisions, as well as any impact on the value of the Facility building as set forth in **Exhibit C**.

The party receiving the Force Majeure Plan shall review it with all deliberate speed and, if the receiving party is the Landlord, shall inform and consult with the Joining Members, and shall negotiate in good faith with the other party for a period of not more than forty-five (45) days whether to accept, accept a modified version of, accept subject to dispute, or not accept the Force Majeure Plan. The receiving party's response shall set forth in writing and in reasonable detail the basis for such decision.

17.4 Acceptance of Force Majeure Plan. In the event that the Force Majeure Plan is accepted, the proposing party shall proceed to implement the Force Majeure Plan in the form accepted. In the event that i) the Landlord and the Tenant cannot reach agreement on a Force Majeure Plan ; and (ii) the effect of accepting the Force Majeure Plan would be to increase the Tip Fee by the equivalent of less than 20 percent, the Tenant shall proceed to implement the proposal as anticipated therein and the dispute shall be resolved in accordance with Section 24.0.

17.5 Rejection of Force Majeure Plan. In the event that (i) the Landlord and the Tenant cannot reach agreement on a proposal that was proposed by the Tenant; and (ii) the effect of accepting the proposal would be to increase the Tip Fee by the equivalent of more than 20 percent, then, after 90 days from the receipt of the original proposal, either party can terminate this Agreement, provided that the Party simultaneously terminates the Master Waste Supply Agreement in accordance with its terms.

(a) In the event of a termination by Tenant, then Tenant shall have not more than ninety (90) days to remove all of its equipment and personal property from the Property and shall leave the Property with no condition requiring remediation for compliance with applicable law, permits or regulation. Provided that Tenant has left no further condition requiring remediation for compliance with applicable law, permits or regulation, title to the building and other fixtures shall pass to the Landlord. If such a condition does exist, the Tenant shall proceed diligently and at its own cost to remediate such condition to the extent required in order to bring the Property into compliance with applicable law, permits and regulations. In such event, and unless the Landlord elects to take title immediately, title to the building and fixtures shall remain in the Tenant until completion of such remediation whereupon it shall pass to the Landlord. The Tenant agrees to execute and deliver such instruments of transfer as may be necessary or appropriate to pass title to the Landlord.

(b) If terminated by the Landlord, such notice of termination shall not be valid unless accompanied by either of the following offers:

(i) An offer from the Landlord to the Tenant to purchase the building and fixtures constructed by the Tenant on the Project Site at the price set forth for such sales in **Exhibit C** as

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

of the date of termination. In such event, the Landlord and the Tenant shall proceed in good faith to close such sale on customary terms. Unless agreed otherwise, the Tenant shall remove all of the Tenant's equipment and personal property from the Property, leaving no further condition requiring remediation for compliance with applicable law, permits or regulation on a schedule to be agreed upon by the Landlord and the Tenant, shall cooperate with the transfer of any applicable Facility Permits to the Landlord that would survive the termination of the Site Lease and the removal of the Tenant's equipment and property from the Property, and shall cooperate with such other arrangements as are necessary for the transfer of the ownership of the building from the Tenant to the Landlord; or

(ii) An offer from Landlord to Tenant to sell the Property to Tenant at the price set forth for such sales in **Exhibit C** as of the date of termination. In the event that the Tenant accepts such offer, the Landlord and the Tenant shall proceed in good faith to close such sale. The Landlord shall remove all of the Landlord's equipment and personal property from the Property by the date of termination on a schedule to be agreed upon by the Landlord and the Tenant, shall cooperate with the transfer of any applicable Facility Permits to the Tenant that would survive the termination of the Site Lease and the removal of the Landlord's equipment and property from the Property, and shall cooperate with such other arrangements as are necessary for the transfer of the ownership of the Property from the Landlord to the Tenant. In the event that the Tenant does not accept such offer, then, as of the date of termination, provided that the Tenant has left no further condition requiring remediation for compliance with applicable law, permits or regulation, Tenant will be deemed to have abandoned the building and fixtures, title to which shall pass to the Landlord. If such a condition does exist, the Tenant shall proceed diligently and at its own cost to remediate such condition to the extent required in order to bring the Property into compliance with applicable law, permits and regulations. In such event, and unless the Landlord elects to take title immediately, title to the building and fixtures shall remain in the Tenant until completion of such remediation whereupon it shall pass to the Landlord. The Tenant agrees to execute and deliver such instruments of transfer as may be necessary or appropriate to pass title to the Landlord.

17.6 Compliance with Law. Nothing in this article shall relieve the Tenant from its obligation to comply with any law, regulation or lawful order.

SECTION 18.0
DEFAULT AND TERMINATION

18.1 Landlord Right to Terminate. The Landlord may terminate this Lease by written notice to Tenant upon the occurrence and during the continuation of an "Event of Default." An "*Event of Default*" shall mean any of the following:

- (a) the Tenant fails to achieve the Construction Date on or before January 1, 2017;

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

(b) the Tenant fails to achieve the Commercial Operation Date on or before January 1, 2020, as extended by any Excused Delay Period;

(c) the Tenant shall be in default of its obligations under the Master Waste Supply Agreement and such default is not cured within any applicable cure period;

(d) the Landlord suffers the actual imposition of any fines or penalties imposed by a federal, state or local governmental agency or authority caused solely by the Tenant's violation of conditions of the Tenant Permits or the Property Permits, and the Tenant fails to pay or contest such fines or penalties, or defend and indemnify the Landlord from and against such fines or penalties, within thirty (30) days of receiving written notice from the Landlord;

(e) Fiberight or any successor Tenant shall (a) file, or have filed against it a petition which is not dismissed within sixty (60) days, in bankruptcy, reorganization or similar proceedings under, or shall be adjudicated a bankrupt under, the bankruptcy laws of the United States, (b) have a receiver, permanent or temporary, appointed by a court of competent authority for it or on its behalf which is not dismissed within sixty (60) days, (c) request the appointment of a receiver, (d) make a general assignment for the benefit of creditors, or (e) shall have its bank accounts, property or receivables attached and such attachment proceedings are not dismissed within sixty (60) days;

(f) Fiberight or any successor Tenant shall dissolve or liquidate;

(g) the Tenant fails to make any undisputed payment due hereunder within thirty (30) days after the same is due;

(h) the Tenant abandons the Facility after achieving the Commercial Operation Date as evidenced by failure of the Tenant to operate the Facility continuously for a period of sixty (60) days;

(i) the Tenant is otherwise in material breach of its obligations under this Lease or the Master Waste Supply Agreement; provided that no Event of Default, other than a payment default, shall arise or exist unless and until the Landlord has given the Tenant written notice of the alleged default, and the Tenant has failed to cure such default within a period of sixty (60) days thereafter or, if the default is of a such a nature that it cannot reasonably be cured within sixty (60) days, the Tenant has failed to commence to cure the default within such sixty (60) days and fails thereafter to prosecute such cure to completion with diligence and to cure such default within one hundred eighty (180) days of such notice.

18.2 Tenant Right to Terminate. The Tenant may terminate this Lease at any time by ninety (90) days' prior written notice to the Landlord upon the occurrence of any of the following, such termination to be effective as stated in such notice:

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

(a) Prior to the Construction Date, the Tenant reasonably determines that environmental compliance requirements for which the Facility is responsible, permit conditions, permit appeals, legal action or any other factor makes construction or operation of the Facility uneconomic or practically infeasible;

(b) The Landlord is in material breach of its obligations under this Lease, provided, however, no Event of Default shall arise or exist unless and until the Tenant has given Landlord written notice of the alleged default, and Landlord has failed to cure such default within a period of sixty (60) days thereafter or, if the default is of a such a nature that it cannot reasonably be cured within sixty (60) days, Landlord has failed to commence to cure the default within such sixty (60) days and fails thereafter to prosecute such cure to completion with diligence and to cure such default within one hundred eighty (180) days of such notice; or

(c) The Landlord shall (a) file, or have filed against it a petition which is not dismissed within sixty (60) days, in bankruptcy, reorganization or similar proceedings under, or shall be adjudicated bankrupt under the bankruptcy laws of the United States, (b) have a receiver, permanent or temporary, appointed by a court of competent authority for it or on its behalf which is not dismissed within sixty (60) days, (c) request the appointment of a receiver, (d) make a general assignment for the benefit of creditors, or (e) shall have its bank accounts, property or receivables attached and such attachment proceedings are not dismissed within sixty (60) days;

(d) The Landlord shall dissolve or liquidate without designation of and transfer of obligations to a successor entity.

SECTION 19.0
[RESERVED]

SECTION 20.0
[RESERVED]

SECTION 21.0
WAIVER OF SUBROGATION

Notwithstanding anything in the Lease to the contrary, the Landlord and the Tenant hereby release the other from any and all liability or responsibility to the other (or anyone claiming through or under them by way of subrogation or otherwise) for any loss or damage to property caused by fire or any other casualty to the extent covered by insurance.

**SECTION 22.0
MEMORANDUM OF LEASE**

The Landlord and Tenant mutually agree to execute herewith a Memorandum of Lease attached hereto as **Exhibit F** in recordable form with respect to this Lease, which shall be recorded forthwith by the Tenant in the Penobscot County Registry of Deeds, and agree to execute, upon termination of this Lease for whatever cause, a Notice of Termination of Lease in recordable form for recording with said Registry of Deeds.

**SECTION 23.0
ENVIRONMENTAL**

23.1 Environmental Laws Defined. “*Environmental Laws*” means, collectively, any federal, state, or local law, rule or regulation (whether now existing or hereafter enacted or promulgated, as they may be amended from time to time) pertaining to environmental regulations, contamination, clean-up or disclosures, and any judicial or administrative interpretation thereof, including any judicial or administrative orders or judgments, including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. § 9601 *et seq.* (“*CERCLA*”); the Resource Conservation and Recovery Act, 42 U.S.C. § 6901 *et seq.* (“*RCRA*”); the Clean Water Act, 33 U.S.C. § 1251 *et seq.*; the Clean Air Act, 42 U.S.C. § 7401 *et seq.*; the Superfund Amendments and Reauthorization Act of 1986, 42 U.S.C. § 9601 *et seq.* (“*SARA*”); the Toxic Substances Control Act, 15 U.S.C. § 2601 *et seq.* (“*TSCA*”); the Hazardous Materials Transportation Act, 49 U.S.C. Appx. § 1801 *et seq.*; the Maine Uncontrolled Hazardous Substance Sites Act, 38 M.R.S.A. § 1361, *et seq.*, the Maine Hazardous Matter Law, 38 M.R.S.A. § 1317, *et seq.*; or any other applicable federal or state statute regulation or ordinance regulating the generation, storage, containment or disposal of any oil and hazardous wastes, substances and materials (as defined in the Environmental Laws and collectively referred to herein as “*Hazardous Materials*”) or providing for the protection, preservation or enhancement of the natural environment, any rules or regulations promulgated pursuant to any of the foregoing statutes or ordinances, including but not limited to laws relating to groundwater and surface water pollution, air pollution, transportation, storage and disposal of oil and hazardous wastes, substances and materials, storm water drainage, and underground and above ground storage tanks; and any amendments, modifications or supplements of any such statutes, ordinances, rules and regulations.

23.2 Environmental Covenants. The Tenant hereby represents, warrants and covenants as follows:

(a) Except as may be permitted by and only in accordance with Environmental Laws and permits and licenses, the Tenant shall establish, maintain and follow procedures that do not

REVIEW DRAFT
October 9, 2015
PRELIMINARY DRAFT
FOR DISCUSSION PURPOSES ONLY

allow any Hazardous Materials to be stored, located, discharged, possessed, managed, processed, or otherwise handled on the Leased Premises, and shall strictly comply with all Environmental Laws affecting the Leased Premises.

(b) No activity shall be undertaken on the Leased Premises or the Property by the Tenant which would cause a release or threatened release of Hazardous Materials into any watercourse, surface or subsurface water or wetlands, or the discharge into the atmosphere of any Hazardous Materials which would violate any Environmental Law or the terms of any permit issued thereunder.

(c) To the extent the release of any Hazardous Materials at or from the Leased Premises or the Property is caused by the Tenant and is in violation of any Environmental Laws, the Tenant shall, with all due diligence, at its own cost and expense and in accordance with Environmental Laws (and in all events in a manner reasonably satisfactory to the Landlord), take all actions (to the extent and at the time or from time to time) as shall be necessary or appropriate for the remediation of said releases including all removal, containment and remedial actions. In such event, the Tenant shall pay or cause to be paid at no expense to the Landlord all clean-up, administrative, and enforcement costs of applicable government agencies or the parties protected by such Environmental Laws which may be asserted with respect to releases of Hazardous Materials on or from the Leased Premises.

(d) The Tenant shall provide the Landlord, in a timely manner, with copies of all notices, documents, records or other information in any way related to the Tenant's obligations under this section or received or created by the Tenant in relation to its obligations under this section.

23.3 Obligation to Notify. The Tenant or the Landlord, as the case may be, shall promptly notify the other party in writing should it become aware of any release or threatened release of Hazardous Materials or the occurrence of any other environmental problem or liability with respect to the Leased Premises or any real property adjoining or in the vicinity of the Leased Premises or such other property which could subject the Landlord, the Tenant, the Property or the Leased Premises to a claim under any Environmental Laws.

SECTION 24.0
WAIVER

The failure of the Landlord to take action with respect to any breach of any term, covenant, or condition contained in this Lease shall not be deemed to be a waiver of such term, covenant, or condition. Any waiver by the Landlord of any breach of any term, covenant, or

condition contained in this Lease shall be effective only if in writing and not be deemed to be a waiver of any subsequent breach of the same, or of any other term, covenant, or condition contained in this Lease.

**SECTION 25.0
DISPUTE RESOLUTION**

25.1 Resolution Mechanism. Any dispute arising under this Lease Agreement shall be resolved only in accordance with this Section 24.

25.2 Notice of Dispute; Informal Resolution. A dispute shall arise when one Party sends a written notice of dispute by certified mail to the other Party. The Parties shall first attempt to resolve the dispute through informal negotiations in which each party agrees to participate in good faith.

25.3 Mediation. If the Parties cannot resolve the dispute informally within fourteen (14) days of such written notice, the Parties shall submit the dispute to non-binding mediation by a neutral and otherwise qualified mediator reasonably acceptable to both parties within fourteen (14) days following the expiration of the time period for informal negotiations. In the event that the Parties fail to agree upon a mediator within such 14-day period, either Party may request that a mediator be appointed through the American Arbitration Association in accordance with its commercial arbitration rules. The Parties shall attempt in good faith to resolve the dispute through mediation for a period not to exceed sixty (60) days, unless such time period is modified by written agreement of the Parties. Each Party may decide in its sole discretion whether to participate in mediation beyond the 60-day period or any agreed extension.

25.4 Arbitration. In the event that the dispute is not resolved after the end of the period for mediation, either Party may submit the dispute to arbitration to be conducted under the commercial arbitration rules of the American Arbitration Association. Arbitration shall be initiated by the serving of a written notice of intent to arbitrate (an "Arbitration Notice") by one party upon the other. Arbitration proceedings shall be conducted by a single arbitrator to be agreed upon by the parties; provided, however, that if the parties are unable to agree upon a single arbitrator within ten (10) days from the date of the Arbitration Notice, each party shall select an arbitrator and the two so named shall name a third arbitrator. The arbitration proceedings shall then be heard by the arbitrator(s) and the decision of the arbitrator, or of a majority if a panel of three has been selected, shall be final and binding on the parties. The arbitrator(s) shall have no authority to add to, detract from, reform or alter in any manner any provision of this Agreement. Judgment upon the arbitration award may be entered in any court

of competent jurisdiction. Any Arbitration Notice must be served within one (1) year from the date on which the claim arose, and failure to bring such claim within such one year period shall constitute a waiver of such claim and an absolute bar to further proceedings with respect to it. All arbitration proceedings shall be conducted in Bangor, Maine unless the parties otherwise agree in writing. Notwithstanding the foregoing, nothing in this Agreement shall be deemed to preclude either party from seeking temporary or permanent injunctive relief from a court of competent jurisdiction with respect to any breach of this Agreement.

25.5 Costs. Each of the Parties will bear its own costs in connection with any dispute resolution proceeding. The Parties shall share equally the cost of any mediator or single arbitrator. If a panel of three arbitrators is appointed, each Party shall pay the costs of the arbitrator appointed by it, and the cost of the third arbitrator shall be shared equally.

SECTION 26.0

MISCELLANEOUS

26.1 Parties Bound. The covenants and conditions contained in this Lease shall bind the heirs, successors, executors, administrators, and assigns of each of the parties to this Lease.

26.2 Time of the Essence. Time is of the essence in this Lease, and in each and every covenant, term, condition, and provision of this Lease.

26.3 Section Captions and References. The captions appearing under the section number designations of this Lease are for convenience only and are not a part of this Lease and do not in any way limit or amplify the terms and provisions of this Lease. Unless the context clearly requires otherwise, references to section numbers and exhibits shall be deemed references to the section numbers and exhibits to this Lease.

26.4 Governing Law. It is agreed that this Lease shall be governed by, construed, and enforced in accordance with the laws of the State of Maine without regard for conflict of law provisions.

26.5 Entire Agreement. This Lease, together with the Development Agreement and the Master Waste Supply Agreement, shall constitute the entire agreement between the parties. Any prior understanding or representation of any kind preceding the date of this Lease shall not be binding on either party except to the extent incorporated in this agreement.

26.6 Modification of Agreement. Any modification of this Lease or additional obligation assumed by either party in connection with this Lease shall be binding only if such modification

is documented in writing and signed by each Party or an authorized representative of each Party.

27.7 Additional Documents. The parties agree to execute whatever reasonable papers and documents may be necessary to effectuate the terms and intent of this Lease.

28.8 No Special or Consequential Damages. Notwithstanding any other provision of this Lease to the contrary, in no event shall either party be liable under this Lease for lost profits or for any special or consequential damages whatsoever.

29.9 Interest. Any amount due but unpaid by either party to this Lease shall bear interest from the date thirty (30) days after the due date at an annual rate equal to the lesser of (i) the prime interest rate, as published in the Wall Street Journal, plus two percent (2%), or (ii) the maximum rate permitted under law

26.10 Counterparts. This Lease may be executed in counterparts. A signature transmitted by facsimile shall have the effect of an original.

EXHIBIT E

REPORTING REQUIREMENTS

In order to facilitate communication between the parties, the following reports, meeting schedule and communications protocol are required. Changes to the schedule, contents, and form of these items will be made by mutual consent and communicated in writing.

Reports

During the period of time between the Effective Date and the Construction Date, the Tenant shall provide the Landlord a report each month regarding progress towards achieving the Construction Date, including:

1. An up-to-date schedule showing:
 - a. key tasks
 - b. critical path tasks
 - c. the Construction Date

During the period of time between the Construction Date and the Commercial Operation Date, the Tenant shall provide the Landlord a report each month regarding progress towards achieving the Commercial Operation Date including:

1. An up-to-date schedule showing:
 - a. key tasks
 - b. critical path tasks
 - c. the Commercial Operation Date

During the period of time starting when material is first received at the Facility through the end of the Term, the Tenant shall provide the Landlord a report, within ten (10) days of the end of each calendar month, for the preceding month that must include the following:

1. Total tons received for processing at the Facility, by material type, during the previous month
2. Total amounts of products produced by the Facility during the previous month
3. Total amounts of products removed from the Property during the previous month

4. Total tons of residuals removed from the Property during the previous month

During the period of time starting when material is first received at the Facility through the end of the Term, the Tenant shall provide the Landlord with copies of all annual reports submitted to permitting authorities, within two (2) weeks of the respective submittal dates.

All measurements and calculations shall be taken and performed in accordance with mutually agreed upon protocols.

Meetings

On not less than a monthly basis during the period between the Construction Date through the Commercial Operation Date, and on not less than a quarterly basis thereafter, the Tenant and Landlord shall provide the necessary management staff and support personnel to meet, either in person, by phone, internet or other means necessary, to discuss the construction schedule, ensure coordination of site activities, share important updates and facilitate cooperation. Meetings will take place at the offices of the Landlord or other agreed upon location and will address, but not be limited to, the following agenda items: operational concerns, systems performance, facility improvements, process changes, regulatory communications for the respective permits of each party, upper management communications and community relations matters as needed.

Communications protocol

Both parties recognize that providing accurate information to facilitate site coordination and emergency response is critical to maintaining a smooth and safe working environment. Therefore, both parties shall provide the other the following information which shall be updated as needed:

1. A list of local site management, with an organizational chart and contact information for 24-hour communications, who are authorized to speak for and represent said entity and acceptable forms of communication necessary for notification
2. A list of other important off-site contacts and contact information
3. A list of critical contractors, and their contact information, that operate on-site under the purview of either the Tenant or the Landlord and related to construction or operations and maintenance of the Facility, on a temporary or long-term basis
4. A list of any other important contact information and procedures necessary for site operations and emergency response
5. Copies of as-built infrastructure plans with GPS coordinates and/or computer-aided design (CAD) information that identify critical control points for emergency response and the location of significant underground utilities.

6. Operational information necessary to run a safe and environmentally sound site including details on environmental, health and safety plans and procedures, chemical inventory and storage (Tier 2), emergency response or other similar plans
7. Copies of important documents relevant to the terms of the Lease including copies of permits, certificates of insurance, contact information for billing purposes or other pertinent items.

EXHIBIT F

MEMORANDUM OF LEASE

[To come]
