7. Additional Comments/Suggestions/ or Elaboration

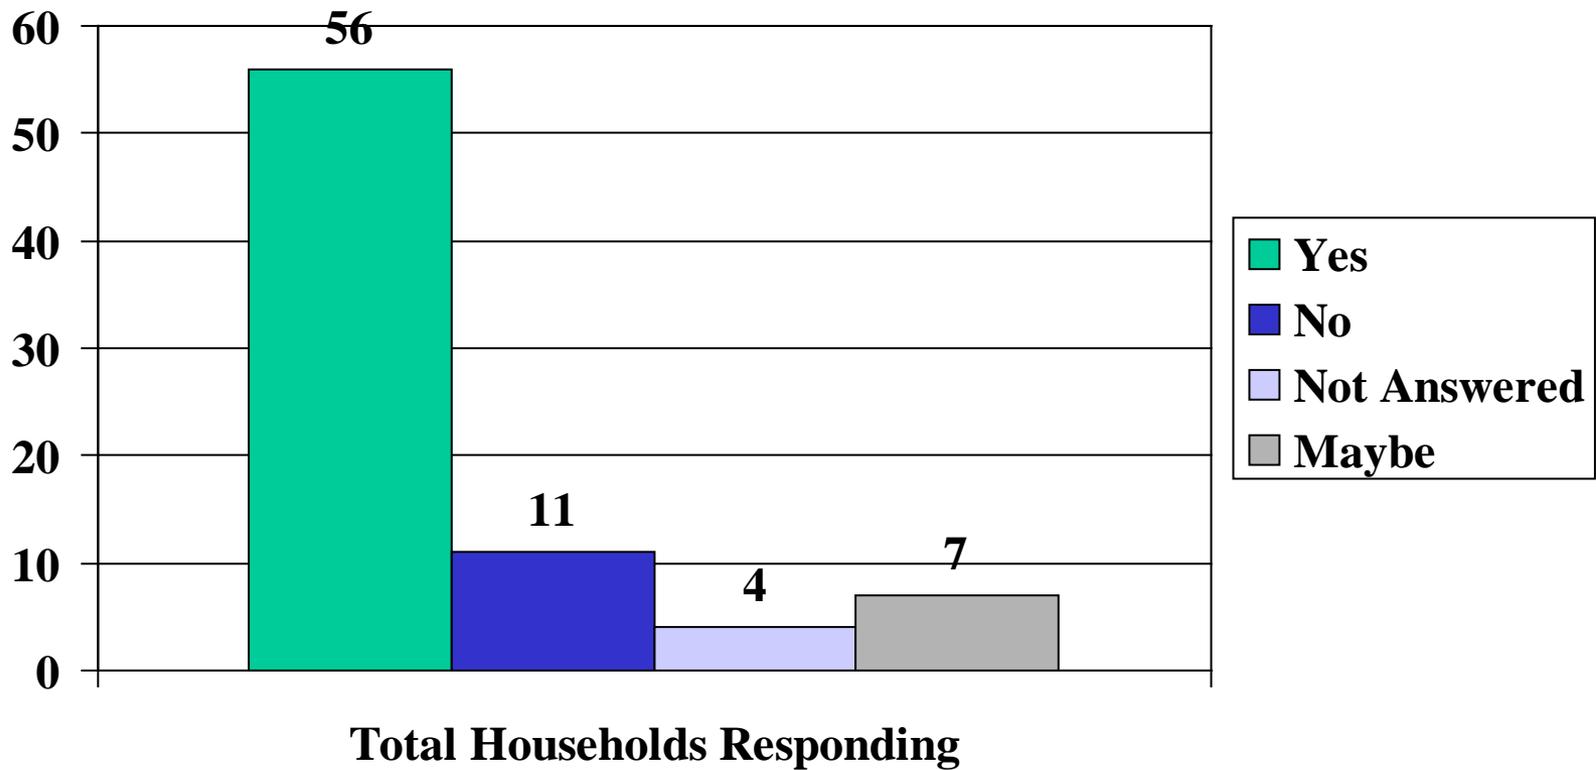

Reference to Question 7

- Swim space open more often to all
- For fitness area-open space use gym
- #'s 5-8 could be 2 rooms with divider (fitness area-open space, meeting space, rental rooms, teen/tween center)
- Inappropriate of tax dollars, competes with Curves, duplicates area facilities
- All are important
- Waste of money
- We need to reduce spending, not increase it!

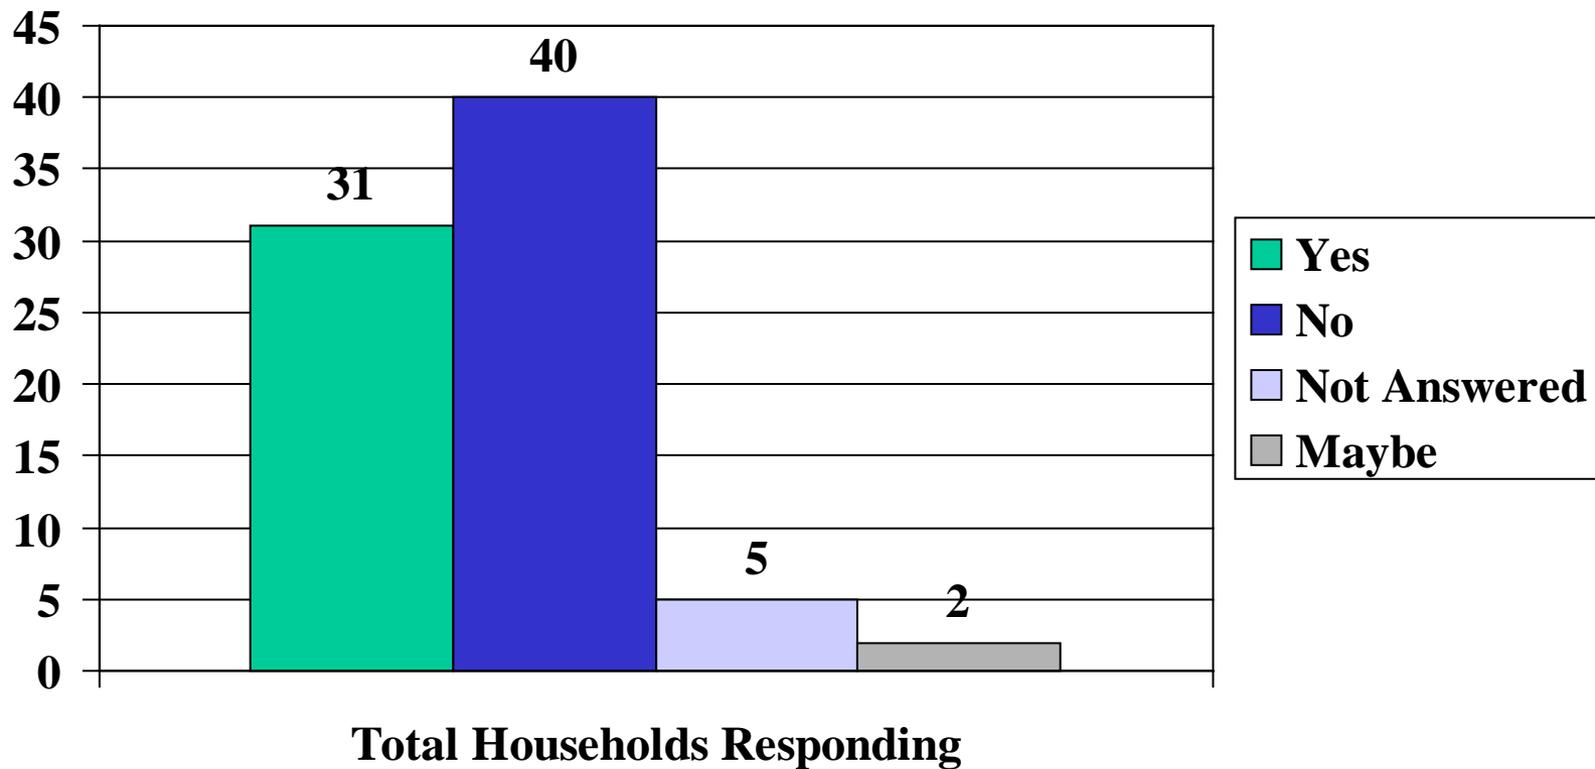

8. Would you be willing to support a voted bond issue to build a community center that includes programs and services for all citizens?

9. Would you be willing to purchase a facility membership and/or pay program registration fees to insure the building remains self-sufficient?

10. Would you be interested in making a private donation or endowment for development of such a facility?

Additional Comments/Suggestions/ or Elaboration

Reference to Question 8

- Depending on cost (2)
- I would need more details; for instance where the money would come from to build it, where it would be, what it would include, etc.
- I would want to wait to see if the new school project was past first. An old HA would make a great Rec. Center, with some work.

Reference to Question 9

- Depending on cost/financial situation at time (5)
- Need more information
- Wouldn't purchase, only because wouldn't use it

Reference to Question 10

- It wouldn't be much
- Depends on financial situation at the time (2)
- Within my limited budget
- Not at this time until I know about the school project
- If it were 100% privately funded, I would consider. We are for profit business in town, not non-profit.

General Comments

- I think with the potential of a new high school we would wait on this project. I believe the old HA and Skehan Gymnasium would be an ideal Rec. Center. Hopefully, an auditorium would be built with the new high school. There is infrastructure for computer use, Town Library, possible senior center, etc. within the old HA.
- Why don't you work on closing Sawyer/Pine Tree Landfill instead of allowing trash from New York!!!
- I suggest the c. center should be within walking distance from schools to combat obesity, with bike lanes to and from school.
- We think it's a great idea!
- Sounds great! Hope it can happen...
- The Senior Exercise class is great! We need a bigger space! Big turnout always!
- Forget It!
- I do believe that Hampden would benefit by having a Community Center. A place which offers everyone, of all ages, an opportunity to develop his or her own interests. I belong to the Senior Fitness program (50+) through Hampden Recreation Department which meets at St Matthews. This program is an ever-growing one and surely could use some extra space. Having a Community Center would definitely benefit is as well as other programs. Hampden is a growing community full of many opportunities.
