

Hampden Online GIS

User's Guide Quick Tips

- Visit www.hampdenmaine.gov
- Click on “Maps” quicklink button on the right side of the page.
- A dialog box will open: “Welcome to CAI’s Axis GIS”
- Click “I agree” after reading the disclaimer.
- On the left side of the page there will be three blue tabs: Search, Abutters and Layers.
- Click “Search” tab
- A yellow dialog box will appear where you can input the property you are researching. You can use owner’s name, property address or map & lot to search for a parcel.
- A listing of properties matching your search criteria will appear in blue below the yellow dialog box.
- Click on the property of interest in blue below, which will highlight the parcel and show it on the town map to the right of your search box.
- A blue box will appear over the map which is a tool you can use to see property specific information.
 - Choosing “Documents & Links” will allow you to view the tax card information.
 - Choosing “Assessment” will show property assessment as well as area (sq. ft.)
 - Choosing “Treeno Docs” will allow you to view any documents that have been scanned to the file such as building permits.
- Once you close the blue box you can then use the blue “layers” tab to view available data layers such as zoning.

For more detailed information you can use the Help tab at the bottom of the page for access to a detailed user manual, or contact the Hampden Land & Building Services office at 207-862-4500.
