

TOWN OF HAMPDEN

PUBLIC NOTICE

The Town of Hampden is hosting a workshop sponsored by the Maine Old Cemetery Association and taught by conservator Joe Ferrannini to demonstrate the proper way in which to preserve and clean cemetery headstones. This workshop will take place at Locust Grove Cemetery, Hampden from Friday August 2nd through Monday August 5th.

Documented direct descendants of any of the persons buried in the “old” section (near the flag pole and soldiers monument) who do not want their ancestor’s stone preserved by this group should contact the town office at townmanager@hampdenmaine.gov no later than July 31st. The Town of Hampden, which cares for the cemetery, has already authorized this work.

For anyone interested in taking part in this workshop, please contact <https://www.moca-me.org/>
